THE STATISTICS

62%

62% of children are physically harmed by their abuser

Under 3's

25% of children living in high-risk households are under the age of 3 years old

130,000

130,000 children live in homes where there is high-risk domestic abuse

DOMESTIC ABUSE IS AN EPIDEMIC AND EDUCATION MUST BE PART OF THE SOLUTION.

We know four out of five victims do not call the police.

You are the 'eyes and ears' in the community: together we can reach out to victims where they feel supported, where they feel safe and free from stigma.

These statistics are frightening and demonstrate why we need to take action, education professionals are ideally placed to make that difference.

TRAINING PACKAGES

Basic Domestic Abuse Awareness: 1hr

Suitable for anyone.

- Understand tactics and risk related to domestic abuse and coercive control
- Understand the cycle of abuse
- Learn how to spot the signs of domestic abuse in colleagues and parents
